Federal Railroad Administration

Petition for Waiver of Compliance

In accordance with Part 211 of Title 49 Code of Federal Regulations (CFR), notice is hereby given that the Federal Railroad Administration (FRA) received a request for a waiver of compliance with certain requirements of its safety standards. The individual petition is described below, including the party seeking relief, the regulatory provisions involved, the nature of the relief being requested, and the petitioner's arguments in favor of relief.

Northeast Illinois Railroad Corporation (Metra) (Waiver Petition Docket Number FRA-1999-6361)

Metra is seeking a permanent waiver of compliance with the Passenger Equipment Safety Standards, 49 CFR Part 238.307(d)(5), which requires that each coupler be inspected not less frequently than every 184 days. Metra states that they currently inspect these couplers on an annual basis using contour maintenance gage No. 31000, aligning wing gage No. 32600 and free slack gage No. 34100-1. Metra contends that this inspection process is more restrictive than that required by 49 CFR Part 238. They further state that the failure rate of couplers for any defect is less than one percent per year. Therefore, they request the inspection interval be extended to 365 days.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

Northeast Illinois Railroad Corporation (Metra); (Waiver Petition Docket Number FRA-1999-6364)

Metra seeks a permanent waiver of compliance with the Passenger Equipment Safety Standards, 49 CFR Part 238.303, which requires exterior calendar day inspection and 49 CFR 238.313, which requires a class one brake test be performed by a qualified maintenance person. Metra requests that on weekends (Saturday and Sunday) and holidays these tests be performed by a qualified person, not a qualified maintenance person required in the Passenger Equipment Safety Standards. Metra states that in many cases a qualified person can be a member of the train crew.
